Dear Gary and Whitney:

Thank you for the call today and letting me know what the status is of the Mather Sports Village project.

As you are aware, my academy operates a baseball program that has over one hundred and fifty young athletes that participate in our program.

All of the coaches and academies in the Sacramento Region are faced with the same issue year-after-year that being many, many players and not enough adequate and safe fields for the kids to play on.

Please consider this letter my academy's fully support of the Mather Sports Village project and we look forward with you to having a great facility for our athletes to play on in the near future. Please present this letter to the Sacramento Board of Supervisors showing our support.

Yours truly,

John Quintell, Owner
